

Hobart Celebrates 125 Years of Continuous Innovation

TROY, Ohio (Jan. 28, 2022) – Founded in 1897, Hobart announced that 2022 marks the company’s 125th anniversary of bringing innovative cooking, dishwashing, food preparation, weighing and wrapping equipment to the foodservice and food retail industry. From the first-ever introduction of motorized mixers, coffee grinders and dishwashers in the late 1800s and early 1900s to the advanced, WiFi-enabled devices of today, Hobart continues its commitment and focus on delivering industry-leading technology solutions to support the needs of commercial and institutional kitchens, groceries, bakeries and delis worldwide.

“Reaching a milestone of 125 years in business is more than just celebrating our history,” says Todd Blair, director of marketing. “It’s about using that foundation to look to the future — to continue offering unmatched equipment technology that always keeps our customers and their needs top of mind. Hobart wants to empower them to do what they love most — create great food for great people.”

In recognition of the anniversary and to celebrate its customers and community, Hobart plans several activities throughout the year. — all focused on the theme “*We Innovate. You Create*”. These include a variety of social media activities, as well as a Hobart

125th anniversary equipment grant award — details of the latter will be announced in the coming months.

The company plans to honor its most valuable asset — its employees — at a summer celebration event at the Hobart headquarters in Troy, Ohio. In turn, employees will participate in a Give-Back Day to support the Troy community, which has been a significant part of the company’s legacy and is a valued part of its future. Employees plan to volunteer time at local independent grocers and restaurants to show their appreciation and to engage the community in the 125th anniversary celebration.
