

Parent company of Hobart, Vulcan; ITW Food Equipment introduces IBEX rapid cook oven which cooks with radio waves or RF.

Check this out: <https://www.ibexoven.com/>

## **Introducing true digital cooking in a commercial oven.**

Until now, cooking has been a one-way street, blindly pushing heat and energy into your food with no feedback, resulting in hot and cold spots. The IBEX rapid-cook oven changes the game, engaging food in a real-time culinary conversation as it Heats, Learns and Adapts™ to deliver delectable, consistent results. IBEX brings proven solid-state RF technology to the commercial kitchen for the first time. And because the IBEX high-speed oven is preprogrammed for your exact menu, you'll get consistently delicious results every time.
